PROFESSIONAL SUMMARY

Software Engineer specializing in full-stack development with TypeScript, React, Next.js, and Node.js. Experienced in AI-powered features, workflow automation, and high-traffic digital products. At The Knot Worldwide, I build solutions for The Bump, a platform with millions of monthly active users, working closely with Product, Design, Editorial, and Engineering teams.

PROFESSIONAL EXPERIENCE

The Knot Worldwide | Fully remote Jul 2024 - Present
Software Engineer

- Deliver end-to-end features for The Bump across frontend, backend, content, and data layers.
- Built an AI-powered baby name matching experience that compares partners' preferences and generates personalized suggestions based on their shared matches, using Next.js, TypeScript, Tailwind CSS, Node.js, and the OpenAI API.
- Automated recurring operational tasks through an internal admin panel, enabling editorial self-service and saving approximately 2 hours of developer effort and 2 hours of Product validation, while reducing back-and-forth on Jira tickets.
- Build and maintain applications and services with React, Fastify, PostgreSQL, and Contentful in Docker and Kubernetes environments; contribute to code reviews and technical decisions.

ALTEN | Fully remote Nov 2022 - Jun 2024
Junior Software Engineer | Projects for ABB Robotics and PortAventura

- Delivered modules for ABB Robotics' Optifact Suite, an industrial automation platform used in automotive manufacturing, including ABB Insights and ABB Edge Config Tool.
- Built applications with Node.js, React, TypeScript, and GraphQL, integrated with industrial IoT infrastructure and edge device telemetry.
- Automated DevOps workflows with Docker, Ansible, and GitHub Actions within Azure IoT Edge deployment pipelines; developed new frontend screens with React for PortAventura.

Wheel Hub | Fully remote Feb 2022 - Nov 2022
Junior Full Stack Developer

- Contributed to a hospital-focused project for the Generalitat de Catalunya (Government of Catalonia).
- Developed and maintained frontend features with React, Next.js, TypeScript, Sass, and Tailwind CSS, and backend features with Node.js, Express, TypeORM, and MySQL.

TECHNICAL SKILLS

Frontend: TypeScript, JavaScript, React, Next.js, Redux, Tailwind CSS, Sass.

Backend & data: Node.js, Fastify, Express, GraphQL, PostgreSQL, MySQL, TypeORM.

AI, content & infrastructure: OpenAI API, Contentful, Docker, Kubernetes, GitHub Actions, Ansible, Azure IoT Edge.

EDUCATION & LANGUAGES

Multiplatform Application Development | Escola Pia Mataró | 2015 - 2017

Additional training: React Native - The Practical Guide.

Languages: Catalan and Spanish: native · English: professional working proficiency.
